

Human Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) ELISA Kit | CECR1 elisa kit

Human Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) ELISA Kit

CATALOG # AAA139667	REACTIVITY Human
-------------------------------	----------------------------

PRODUCT SYNONYMS

Cat Eye Syndrome Chromosome Region; Candidate 1 (CECR1); Human Cat Eye Syndrome Chromosome Region; Candidate 1 (CECR1) ELISA Kit; IDGFL; ADGF; ADA2; Cat Eye Syndrome Critical Region Protein 1; CECR1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1). No significant cross-reactivity or interference between Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) and analogues was observed.
Sequence Length	270
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue homogenates, Cell lysates, Cell culture supernates and other biological fluids
Detection Range	0.312-20ng/mL
Sensitivity	0.118ng/mL
Application	Enzyme-linked immunosorbent assay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for CECR1 elisa kit	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Cat Eye Syndrome Chromosome Region, Candidate 1 (CECR1) in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for CECR1 elisa kit	Neuroscience

NCBI AND UNIPROT INFORMATION

NCBI GI #	30704990
NCBI GeneID	51816
UniProt Accession #	Q9NZK5; Q6ICF1; Q86UB6; Q8NCJ2; Q96K41; A8K9H4
Molecular Weight	30,668 Da
NCBI Official Full Name	Cat eye syndrome chromosome region, candidate 1
NCBI Official Synonym Full Names	cat eye syndrome chromosome region, candidate 1
NCBI Official Symbol	CECR1
NCBI Official Synonym Symbols	PAN; ADA2; ADGF; IDGFL; SNEDS
NCBI Protein Information	adenosine deaminase CECR1
UniProt Protein Name	Adenosine deaminase CECR1
UniProt Gene Name	CECR1
UniProt Synonym Gene Names	ADA2; ADGF; IDGFL
UniProt Entry Name	CECR1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
