

Rat Advanced Glycosylation End Product Specific Receptor (AGER) ELISA Kit | AGER elisa kit

Rat Advanced Glycosylation End Product Specific Receptor (AGER) ELISA Kit

CATALOG #
AAA140617

REACTIVITY
Rat

PRODUCT SYNONYMS

Advanced Glycosylation End Product Specific Receptor (AGER); Rat Advanced Glycosylation End Product Specific Receptor (AGER) ELISA Kit; RAGE; Receptor For Advanced Glycation Endproducts; AGER elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This assay has high sensitivity and excellent specificity for detection of Advanced Glycosylation End Product Specific Receptor (AGER). No significant cross-reactivity or interference between Advanced Glycosylation End Product Specific Receptor (AGER) and analogues was observed.
Sequence Length	404
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue homogenates, Cell lysates, Cell culture supernates and other biological fluids
Detection Range	0.156-10ng/mL
Sensitivity	0.055ng/mL
Application	Enzyme-linked immunosorbent assay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Advanced Glycosylation End Product Specific Receptor (AGER) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Advanced Glycosylation End Product Specific Receptor (AGER) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for AGER elisa kit	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Advanced Glycosylation End Product Specific Receptor (AGER). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Advanced Glycosylation End Product Specific Receptor (AGER). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Advanced Glycosylation End Product Specific Receptor (AGER), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Advanced Glycosylation End Product Specific Receptor (AGER) in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for AGER elisa kit	Metabolic pathway; Tumor immunity; Endocrinology; Cardiovascular biology; Neuroscience

NCBI AND UNIPROT INFORMATION

NCBI GI #	2497317
NCBI GeneID	177
Molecular Weight	41,098 Da
NCBI Official Full Name	Advanced glycosylation end product-specific receptor
NCBI Official Synonym Full Names	advanced glycosylation end product-specific receptor
NCBI Official Symbol	AGER
NCBI Official Synonym Symbols	RAGE
NCBI Protein Information	advanced glycosylation end product-specific receptor
UniProt Protein Name	Advanced glycosylation end product-specific receptor
UniProt Gene Name	AGER
UniProt Synonym Gene Names	RAGE
UniProt Entry Name	RAGE_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
