

Human Roundabout, Axon Guidance Receptor, Homolog 1 (ROBO1) ELISA Kit | ROBO1 elisa kit

Human Roundabout, Axon Guidance Receptor, Homolog 1 (ROBO1) ELISA Kit

CATALOG #
AAA140745

REACTIVITY
Human

PRODUCT SYNONYMS

Roundabout; Axon Guidance Receptor; Homolog 1 (ROBO1); Human Roundabout; Homolog 1 (ROBO1) ELISA Kit; DUTT1; SAX3; Roundabout homolog 1; Deleted in U twenty twenty; H-Robo-1; ROBO1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of RIPK1. No significant cross-reactivity or interference between RIPK1 and analogues was observed.
Sequence Length	1612
Assay Type	Double-antibody Sandwich
Samples	Tissue Homogenates, Cell Lysates And Other Biological Fluids
Detection Range	0.312-20ng/mL
Sensitivity	0.116ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level RIPK1 were tested 20 times on one plate, respectively. Intra-Assay: CV<10%
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level RIPK1 were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for ROBO1 elisa kit	Intended Uses: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of RIPK1 in human serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. Principle of the Assay: The microplate provided in this kit has been pre-coated with an antibody specific to RIPK1. Standards or samples are then added to the appropriate microplate wells with a biotin-conjugated antibody specific to RIPK1. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain RIPK1, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of RIPK1 in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for ROBO1 elisa kit	CD & Adhesion molecule

NCBI AND UNIPROT INFORMATION

NCBI GI #	119589291
NCBI GeneID	6091
Molecular Weight	169,661 Da
NCBI Official Full Name	roundabout, axon guidance receptor, homolog 1 (Drosophila), isoform CRA_a
NCBI Official Synonym Full Names	roundabout guidance receptor 1
NCBI Official Symbol	ROBO1
NCBI Official Synonym Symbols	SAX3; DUTT1
NCBI Protein Information	roundabout homolog 1
UniProt Protein Name	Roundabout homolog 1
UniProt Gene Name	ROBO1
UniProt Synonym Gene Names	DUTT1
UniProt Entry Name	ROBO1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
