PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of Nephrin (NPHN). No significant cross-reactivity or interference between Nephrin (NPHN) and analogues was observed.
Sequence Length	1241
Assay Type	Double-antibody Sandwich
Samples	Urine, Tissue homogenates, Cell lysates and other biological fluids
Detection Range	27.4-20,000pg/mL
Sensitivity	9.2pg/mL
Application	Chemiluminescent immunoassay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Nephrin (NPHN) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Nephrin (NPHN) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for NPHN clia kit	The microplate provided in this kit has been pre-coated with an antibody specific to Nephrin (NPHN). Standards or samples are then added to the appropriate microplate wells with a biotin-conjugated antibody specific to Nephrin (NPHN). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then the mixture of substrate A and B is added to generate glow light emission kinetics. Upon plate development, the intensity of the emitted light is proportional to the Nephrin (NPHN) level in the sample or standard.;
Product Categories/Family for NPHN clia kit	Tumor immunity; Kidney biomarker
