

## Rabbit Interleukin 9 Receptor Polyclonal Antibody | anti-IL9R antibody

Polyclonal Antibody to Interleukin 9 Receptor (IL9R)

| CATALOG # | HOST   | REACTIVITY      | APPLICATIONS                                                                 |
|-----------|--------|-----------------|------------------------------------------------------------------------------|
| AAA141825 | Rabbit | Mouse, Rat, Pig | Immunoprecipitation, Immunocytochemistry, Immunohistochemistry, Western Blot |

### PRODUCT SYNONYMS

Interleukin 9 Receptor; Polyclonal Antibody; Polyclonal Antibody to Interleukin 9 Receptor (IL9R); anti-IL9R antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Immunogen                                      | Recombinant IL9R (Gly47~Gln257) expressed in E.coli ( ).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Preparation and Storage                        | <p><b>Storage:</b><br/>           Avoid repeated freeze/thaw cycles.<br/>           Store at 4 degree C for frequent use.<br/>           Aliquot and store at -20 degree C for 24 months.</p> <p><b>Stability Test:</b><br/>           thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 degree C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.</p> |
