

Rabbit R-PE Antibody

Purified Rabbit Anti-R-PE, Polyclonal Antibody

CATALOG # AAA14282	HOST Rabbit	APPLICATIONS Flow Cytometry, Functional Assay, Immunohistochemistry, ELISA
------------------------------	-----------------------	--

PRODUCT SYNONYMS

R-PE; Purified Rabbit Anti-R-PE; Polyclonal Antibody; anti-R-PE antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Isotype	Rabbit IgG
Form/Format	Purified IgG buffered in PBS and 0.02% NaN ₃ . (Purified from antiserum via Affinity Chromatography). For maximal recovery of contents, please quick-spin vial before opening.
Applicable Applications for anti-R-PE antibody	FCM/FACS (Flow Cytometry), IHC (Immunohistochemistry), ELISA
Application Notes	Testing Results: AAA14282 tested in ELISA – titre of 1:2000 Secondary Used: HRP Goat Anti-Rabbit IgG at a dilution of 1:4000.
Preparation and Storage	Store at +4°C. For long term storage, aliquot and freeze unused portions at -20°C in volumes appropriate for single usage. Avoid repeated freeze and thaw cycles

IMAGES

FCM (Flow Cytometry)

PE conjugated polystyrene beads were stained with (filled histogram) or rabbit IgG, FITC isotype control (open histogram).

ADDITIONAL INFORMATION

Related Product Information for anti-R-PE antibody	Rabbit Anti-R-PE polyclonal antibody is prepared by immunizing New Zealand white rabbits with highly purified PE and isolating the antibody from rabbit serum. This antibody reacts with R-phycoerythrin (R-PE), a 240 kDa fluorescent protein isolated from red algae.
--	---

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
