

Mouse anti-General Histamine (HA) Monoclonal Antibody | anti-HA antibody

HRP-Linked Monoclonal Antibody to Histamine (HA)

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA146184	Mouse	General	Immunocytochemistry, Immunohistochemistry

PRODUCT SYNONYMS

Histamine (HA); Monoclonal Antibody; HRP-Linked Monoclonal Antibody to Histamine (HA); anti-HA antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	General
Clonality	Monoclonal
Isotype	IgG2b Kappa
Clone Number	8-C2
Purity/Purification	Antigen-specific Affinity Chromatography
Form/Format	Supplied as solution form in 0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.
Concentration	500ug/ml (varies by lot)
Applicable Applications for anti-HA antibody	ICC (Immunocytochemistry), IHC (Immunohistochemistry)
Source	Antibody labeling
Label	HRP
Traits	Liquid
Immunogen	Small Molecule, Histamine conjugated to OVA.
Cross Reactivity	General
Preparation and Storage	Storage: Avoid repeated freeze/thaw cycles. Store at 4°C for frequent use. Aliquot and store at -20°C for 12 months. Stability Test: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. Note: As fluorescence can photobleach when exposed to light, so the antibody must be protected from light.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
