

# Human Platelet Derived Growth Factor AA (PDGFAA) Antibody Pair Kit | PDGFAA antibody pair kit

Human Platelet Derived Growth Factor AA (PDGFAA) Antibody Pair Kit (with Standard)

|                               |                            |                                     |
|-------------------------------|----------------------------|-------------------------------------|
| CATALOG #<br><b>AAA147781</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>ELISA, ELISA</b> |
|-------------------------------|----------------------------|-------------------------------------|

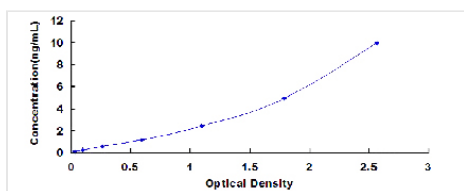

## PRODUCT SYNONYMS

Platelet Derived Growth Factor AA (PDGFAA); Human Platelet Derived Growth Factor AA (PDGFAA) Antibody Pair Kit (with Standard); PDGF-AA; PDGFAA antibody pair kit

## PRODUCT SPECIFICATIONS

|                                                      |                                                                                                      |
|------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Reactivity                                           | Human                                                                                                |
| Samples                                              | Serum, Plasma, Tissue Homogenates, Cell Lysates, Cell Culture Supernates and Other Biological Fluids |
| Detection Range                                      | 0.312-20ng/mL                                                                                        |
| Applicable Applications for PDGFAA antibody pair kit | Luminex, ELISPOT, CLIA (Chemiluminescence Immunoassay), ELISA                                        |
| Standard                                             | Recombinant PDGFAA (Lyophilized, 1 vial-10ug)                                                        |
| Capture Antibody                                     | Mouse monoclonal antibody (Liquid, 1 vial-400mug/800muL)                                             |
| Detection Antibody                                   | Biotinylated Mouse monoclonal antibody (Liquid, 1 vial-100mug/500muL)                                |
| Producte Usage                                       | Raw materials can be used for preparation of 5x96T or 10x96T ELISA Kits.                             |
| Antibody Support Pack                                | Antibody Support Pack (Buffer Pack) is sold separately as                                            |

## IMAGES

Standard Curve (Sample)

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
