| Reactivity                                         | Human                                                                    |
| Samples                                            | Plasma                                                                   |
| Detection Range                                    | 0.312-20ng/mL                                                            |
| Applicable Applications for FGL1 antibody pair kit | Luminex, ELISPOT, CLIA (Chemiluminescence Immunoassay), ELISA            |
| Standard                                           | Recombinant FGL1 (Lyophilized, 1 vial-10ug)                              |
| Capture Antibody                                   | Rabbit polyclonal antibody (Liquid, 1 vial-400mug/800muL)                |
| Detection Antibody                                 | Biotinylated Rabbit polyclonal antibody (Liquid, 1 vial-100mug/500muL)   |
| Producte Usage                                     | Raw materials can be used for preparation of 5x96T or 10x96T ELISA Kits. |
| Antibody Support Pack                              | Antibody Support Pack (Buffer Pack) is sold separately as                |
