

Rabbit anti-Human Cell Division Cycle Protein 7 (CDC7) Polyclonal Antibody | anti-CDC7 antibody

Polyclonal Antibody to Cell Division Cycle Protein 7 (CDC7)

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA149740	Rabbit	Human	Immunoprecipitation, Immunocytochemistry, Immunohistochemistry, Western Blot

PRODUCT SYNONYMS

Cell Division Cycle Protein 7 (CDC7); Polyclonal Antibody; Polyclonal Antibody to Cell Division Cycle Protein 7 (CDC7); CDC7L1; HsCDC7; Hsk1; huCDC7; Cell Division Cycle 7-Related Protein Kinase; anti-CDC7 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Specificity	The antibody is a rabbit polyclonal antibody raised against CDC7. It has been selected for its ability to recognize CDC7 in immunohistochemical staining and western blotting.
Purity/Purification	Antigen-specific affinity chromatography followed by Protein A affinity chromatography
Form/Format	Liquid; PBS, pH7.4, containing 0.02% NaN ₃ , 50% glycerol.
Concentration	500ug/ml (varies by lot)
Applicable Applications for anti-CDC7 antibody	IP (Immunoprecipitation), ICC (Immunocytochemistry), IHC (Immunohistochemistry), WB (Western Blot)
Cross Reactivity	Human
Conjugation	None
Preparation and Storage	Store at 4 degree C for frequent use. Aliquot and store at -20 degree C for 12 months. Avoid repeated freeze/thaw cycles. The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37 degree C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

IMAGES

IHC (Immunohistochemistry)
DAB staining on formalin fixed paraffin- embedded stomach tissue

WB (Western Blot)
Western Blot

ADDITIONAL INFORMATION

Product Categories/Family for anti-
CDC7 antibody

Developmental Science

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
