| Host                                            | Rabbit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Reactivity                                      | Human                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Purity/Purification                             | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Form/Format                                     | Liquid; Supplied as solution form in PBS, pH7.4, containing 0.02% NaN <sub>3</sub> , 50% glycerol.                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Concentration                                   | 0.32mg/ml (varies by lot)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Applicable Applications for anti-CFHR3 antibody | IP (Immunoprecipitation), ICC (Immunocytochemistry), IHC (Immunohistochemistry), WB (Western Blot)                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Source                                          | Polyclonal antibody preparation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Immunogen                                       | Recombinant CFHR3 (Glu208~Glu330) expressed in E.coli                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Preparation and Storage                         | <p>Storage:</p> <p>Avoid repeated freeze/thaw cycles.</p> <p>Store at 4°C for frequent use.</p> <p>Aliquot and store at -20°C for 24 months.</p> <p>Stability Test:</p> <p>The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.</p> |
