

Human flagellin ELISA Kit | flagellin elisa kit

Human flagellin ELISA Kit

CATALOG #
AAA15348

REACTIVITY
Human

PRODUCT SYNONYMS

flagellin; Human flagellin ELISA Kit; flagellin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of human flagellin. No significant cross-reactivity or interference between human flagellin and analogues was observed.
Sequence Length	210
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, tissue homogenates
Detection Range	0.78 ng/ml-50 ng/ml
Sensitivity	< 0.195 ng/ml
Intra-assay Precision	Intra-assay Precision (Precision within an assay): CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess.
Inter-assay Precision	Inter-assay Precision (Precision between assays): CV%<10%. Three samples of known concentration were tested in twenty assays to assess.
Preparation and Storage	Unopened test kits should be stored at 2 to 8 degree C upon receipt. Please refer to pdf manual for further storage instructions.

ADDITIONAL INFORMATION

Related Product Information for flagellin elisa kit

Principle of the Assay: This assay employs the quantitative sandwich enzyme immunoassay technique. Antibody specific for flagellin has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any flagellin present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for flagellin is added to the wells. After washing, avidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of flagellin bound in the initial step. The color development is stopped and the intensity of the color is measured.

NCBI AND UNIPROT INFORMATION

NCBI GI #	45359231
NCBI GeneID	2761414
NCBI Accession #	NP_988788.1
NCBI GenBank Nucleotide #	NC_005791.1
NCBI Official Full Name	flagellin
NCBI Official Symbol	flaB3
NCBI Protein Information	flagellin

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
