

Mouse F-TESTO ELISA Kit | F-TESTO elisa kit

Mouse F-TESTO (Free Testosterone) ELISA Kit

CATALOG #
AAA163689

REACTIVITY
Mouse

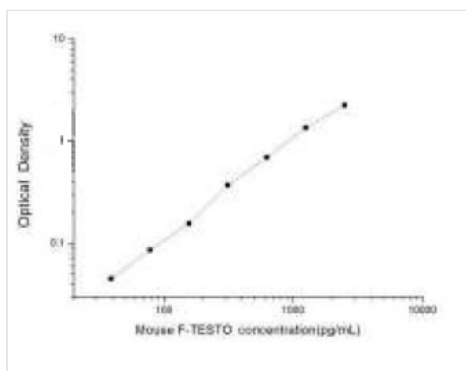

PRODUCT SYNONYMS

F-TESTO; Mouse F-TESTO (Free Testosterone) ELISA Kit; F-TESTO elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This kit recognizes Mouse F-TESTO in samples. No significant cross-reactivity or interference between Mouse F-TESTO and analogues was observed
Assay Type	Quantitative Competitive
Samples	Serum, plasma and other biological fluids
Detection Range	31.25-2000 pg/mL
Sensitivity	18.75 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Mouse F-TESTO were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Mouse F-TESTO were tested on 3 different plates, 20 replicates in each plate, respectively.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for F-TESTO elisa kit	Principle of the Assay: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Mouse F-TESTO. During the reaction, Mouse F-TESTO in samples or Standard competes with a fixed amount of Mouse F-TESTO on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Mouse FTESTO. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) are added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme- substrate reaction is terminated by the addition of stop solution and the color change is measured spectrophotometrically at a wavelength of 450 ± 2 nm. The concentration of Mouse F-TESTO in the samples is then determined by comparing the OD of the samples to the standard curve. Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Mouse F-TESTO concentrations in serum, plasma and other biological fluids.
