

Human VS ELISA Kit | VS elisa kit

Human VS (Versican/Pg-M) ELISA Kit

CATALOG #
AAA163701

REACTIVITY
Human

PRODUCT SYNONYMS

VS; Human VS (Versican/Pg-M) ELISA Kit; VS elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human VS. No significant cross-reactivity or interference between Human VS and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Human VS and all the analogues, therefore, cross reaction may still exist.
Sequence Length	115
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.313-20ng/mL
Sensitivity	Min: 0.188ng/mL; Max: 20ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for VS elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of VS in human serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human VS. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Human VS and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human VS, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Human VS. You can calculate the concentration of Human VS in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	32453598
NCBI GeneID	1494230
NCBI Accession #	NP_861804.1
NCBI GenBank Nucleotide #	NC_004928.1
UniProt Accession #	Q7Y529
Molecular Weight	12,867 Da
NCBI Official Full Name	Vs valyl-tRNA synthetase modifier
NCBI Official Symbol	vs
NCBI Protein Information	Vs valyl-tRNA synthetase modifier
UniProt Protein Name	Vs valyl-tRNA synthetase modifier
UniProt Gene Name	vs
UniProt Entry Name	Q7Y529_BPR69

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
