

Mouse Nephrin ELISA Kit | Nephrin elisa kit

Mouse Nephrin ELISA Kit

CATALOG #
AAA16399

REACTIVITY
Mouse

PRODUCT SYNONYMS

Nephrin; Mouse Nephrin ELISA Kit; Nephrin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, Plasma, Cell Culture Supernatants, Body Fluid And Tissue Homogenate
Assay Type	Quantitative Competitive
Sensitivity	1.0 ug/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This NPCAb ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Bovine NPCAb. This ELISA kit for research use only!

Principle of the Assay: NPCAb ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-NPCAb antibody and an NPCAb-HRP conjugate. The assay sample and buffer are incubated together with NPCAb-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the NPCAb concentration since NPCAb from samples and NPCAb-HRP conjugate compete for the anti-NPCAb antibody binding site. Since the number of sites is limited, as more sites are occupied by NPCAb from the sample, fewer sites are left to bind NPCAb-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The NPCAb concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	10441644
NCBI GeneID	4868
Molecular Weight	130,546 Da
NCBI Official Full Name	nephrin
NCBI Official Synonym Full Names	nephrosis 1, congenital, Finnish type (nephrin)
NCBI Official Symbol	NPHS1
NCBI Official Synonym Symbols	CNF; NPHN; nephrin
NCBI Protein Information	nephrin; renal glomerulus-specific cell adhesion receptor
UniProt Protein Name	Nephrin
UniProt Gene Name	NPHS1
UniProt Synonym Gene Names	NPHN
UniProt Entry Name	NPHN_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
