

Mouse TGFb2 ELISA Kit | TGF-beta2 elisa kit

Mouse TGFb2 (Transforming Growth Factor Beta 2) ELISA Kit

CATALOG #
AAA164023

REACTIVITY
Mouse

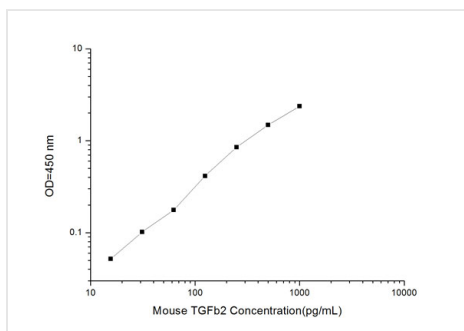

PRODUCT SYNONYMS

TGFb2; Mouse TGFb2 (Transforming Growth Factor Beta 2) ELISA Kit; TGF-beta2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of Mouse TGF-beta2. No significant cross-reactivity or interference between Mouse TGF-beta2 and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Mouse TGF-beta2 and all the analogues, therefore, cross reaction may still exist.
Sequence Length	3
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	15.625-1000pg/mL
Sensitivity	Min: 9.375pg/mL; Max: 1000pg/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for TGF-beta2 elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of TGF-beta2 in Mouse serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse TGF-beta2. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Mouse TGF-beta2 and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse TGF-beta2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Mouse TGF-beta2. You can calculate the concentration of Mouse TGF-beta2 in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	258674224
NCBI Official Full Name	TGFB2, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
