

Human ES ELISA Kit | ES elisa kit

Human ES (Endostatin) ELISA Kit

CATALOG #
AAA164617

REACTIVITY
Human

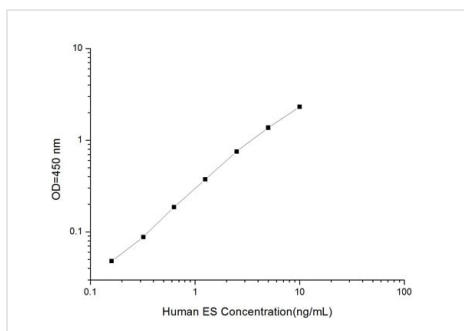

PRODUCT SYNONYMS

ES; Human ES (Endostatin) ELISA Kit; ES elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human ES. No significant cross-reactivity or interference between Human ES and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Human ES and all the analogues, therefore, cross reaction may still exist.
Sequence Length	865
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.156-10ng/mL
Sensitivity	Min: 0.094ng/mL; Max: 10ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for ES elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of ES in human serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human ES. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Human ES and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human ES, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Human ES. You can calculate the concentration of Human ES in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	62485066
Molecular Weight	98,850 Da
NCBI Official Full Name	ES cell associated transcript 11
UniProt Protein Name	LINE-1 type transposase domain-containing protein 1
UniProt Gene Name	L1TD1
UniProt Synonym Gene Names	ECAT11
UniProt Entry Name	LITD1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
