

Human DLK-1 ELISA Kit | DLK-1 elisa kit

Human DLK-1 (Delta Like 1 Homolog) ELISA Kit

CATALOG #
AAA164759

REACTIVITY
Human

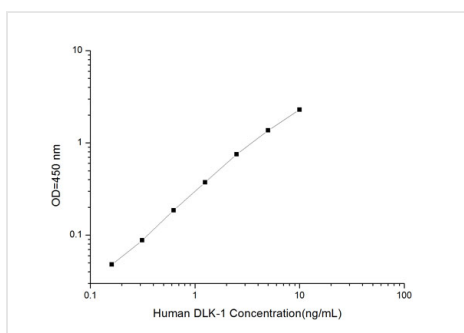

PRODUCT SYNONYMS

DLK-1; Human DLK-1 (Delta Like 1 Homolog) ELISA Kit; DLK-1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human DLK-1. No significant cross-reactivity or interference between Human DLK-1 and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Human DLK-1 and all the analogues, therefore, cross reaction may still exist.
Sequence Length	207
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.156-10ng/mL
Sensitivity	Min: 0.094ng/mL; Max: 10ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for DLK-1 elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of DLK-1 in human serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human DLK-1. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Human DLK-1 and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human DLK-1, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Human DLK-1. You can calculate the concentration of Human DLK-1 in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	297370693
Molecular Weight	22,954 Da
NCBI Official Full Name	DLK-1, isoform e
UniProt Protein Name	Protein DLK-1, isoform e
UniProt Gene Name	dlk-1
UniProt Entry Name	D6VPA3_CAEEL

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
