

Human sFMC ELISA Kit | sFMC elisa kit

Human sFMC (Soluble Fibrin Monomer Complex) ELISA Kit

CATALOG #
AAA164905

REACTIVITY
Human

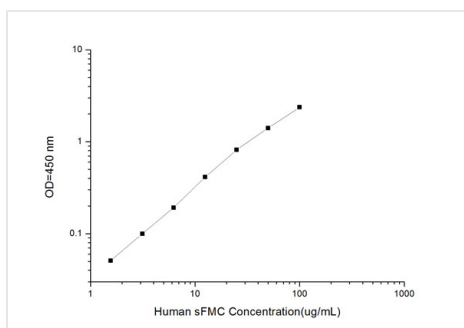

PRODUCT SYNONYMS

sFMC; Human sFMC (Soluble Fibrin Monomer Complex) ELISA Kit; sFMC elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes natural and recombinant Human sFMC. No significant cross-reactivity or interference between Human sFMC and analogues was observed.
Sequence Length	241
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	1.563-100?g/mL
Sensitivity	Min: 0.938?g/mL; Max: 100?g/mL
Intended Uses	This ELISA kit applies to the in vitro quantitative determination of Human sFMC concentrations in serum, plasma and other biological fluids.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for sFMC elisa kit	Principle of the assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to sFMC. Standards or samples are added to the appropriate micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for sFMC and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain sFMC, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of sFMC. You can calculate the concentration of sFMC in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	291153915
Molecular Weight	27,021 Da
NCBI Official Full Name	SfmC
UniProt Protein Name	SfmC
UniProt Gene Name	sfmC
UniProt Entry Name	D4GN07_PANAM

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
