

Sheep bFGF/FGF2 ELISA Kit | bFGF/FGF2 elisa kit

Sheep bFGF/FGF2 (Basic Fibroblast Growth Factor) ELISA Kit

CATALOG #
AAA165050

REACTIVITY
Sheep

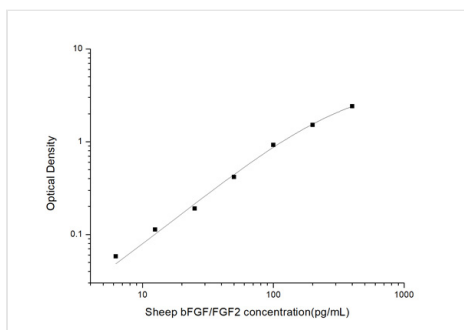

PRODUCT SYNONYMS

bFGF/FGF2; Sheep bFGF/FGF2 (Basic Fibroblast Growth Factor) ELISA Kit; bFGF/FGF2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Specificity	This kit recognizes Sheep bFGF/FGF2 in samples. No significant cross-reactivity or interference between Sheep bFGF/FGF2 and analogues was observed.
Assay Type	Quantitative Sandwich
Samples	Serum, plasma and other biological fluids
Detection Range	6.25-400pg/mL
Sensitivity	3.75pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Sheep bFGF/FGF2 were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Sheep bFGF/FGF2 were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for bFGF/FGF2 elisa kit	Principle of the Assay: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Sheep bFGF/FGF2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Sheep bFGF/FGF2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Sheep bFGF/FGF2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm ± 2 nm. The OD value is proportional to the concentration of Sheep bFGF/FGF2. You can calculate the concentration of Sheep bFGF/FGF2 in the samples by comparing the OD of the samples to the standard curve. Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Sheep bFGF/FGF2 concentrations in serum, plasma and other biological fluids.
