

Mouse SREBP ELISA Kit | SREBP elisa kit

Mouse SREBP (Sterol Regulatory Element Binding Protein) ELISA Kit

CATALOG #
AAA165181

REACTIVITY
Mouse

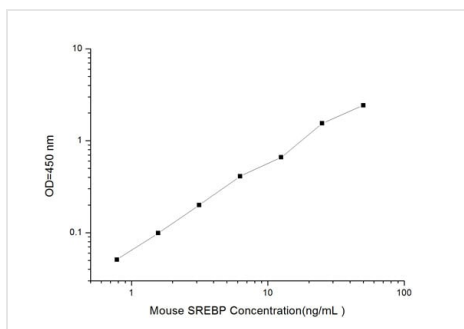

PRODUCT SYNONYMS

SREBP; Mouse SREBP (Sterol Regulatory Element Binding Protein) ELISA Kit; SREBP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This kit recognizes Mouse SP-A1 in samples. No significant cross-reactivity or interference between Mouse SP-A1 and analogues was observed.
Sequence Length	312
Samples	Serum, Plasma And Other Biological Fluids
Assay Type	Quantitative Sandwich
Detection Range	0.31-20ng/mL
Sensitivity	0.19ng/mL.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for SREBP elisa kit	Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Mouse SP-A1 concentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse SP-A1. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse SP-A1 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse SP-A1, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Mouse SP-A1. You can calculate the concentration of MouseSP-A1 in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	526117816
NCBI GeneID	100233128
NCBI Accession #	NP_001268121.1
NCBI GenBank Nucleotide #	NM_001281192.1
NCBI Official Full Name	sucrose responsive element binding protein
NCBI Official Symbol	SREBP
NCBI Protein Information	sucrose responsive element binding protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
