

## Rat PS1 ELISA Kit | PS1 elisa kit

Rat PS1 (Presenilin 1) ELISA Kit

CATALOG #  
**AAA165438**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

PS1; Rat PS1 (Presenilin 1) ELISA Kit; PS1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                                                                                                                                                                                                                  |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of Rat PS1. No significant cross-reactivity or interference between Rat PS1 and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Rat PS1 and all the analogues, therefore, cross reaction may still exist. |
| Sequence Length         | 467                                                                                                                                                                                                                                                                                                                                                                                  |
| Samples                 | Serum, Plasma, Biological Fluids                                                                                                                                                                                                                                                                                                                                                     |
| Assay Type              | Sandwich                                                                                                                                                                                                                                                                                                                                                                             |
| Detection Range         | 125-8000pg/mL                                                                                                                                                                                                                                                                                                                                                                        |
| Sensitivity             | Min: 75pg/mL; Max: 8000pg/mL                                                                                                                                                                                                                                                                                                                                                         |
| Preparation and Storage | Store at 4 degree C.                                                                                                                                                                                                                                                                                                                                                                 |

| Related Product Information for PS1 elisa kit | <p><b>Description:</b> The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of PS1 in Rat serum, plasma and other biological fluids</p> <p><b>Principle of the Assay:</b> This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat PS1. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Rat PS1 and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat PS1, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Rat PS1. You can calculate the concentration of Rat PS1 in the samples by comparing the OD of the samples to the standard curve.</p> |
