

Mouse BTA ELISA Kit | BTA elisa kit

Mouse BTA (Bladder Tumor Antigen) ELISA Kit

CATALOG #
AAA165509

REACTIVITY
Mouse

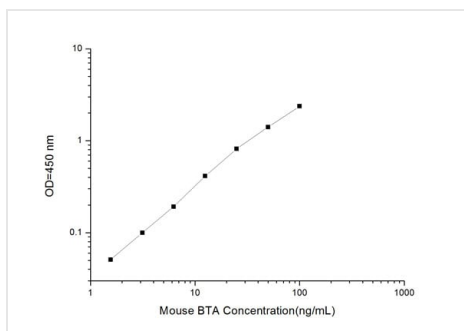

PRODUCT SYNONYMS

BTA; Mouse BTA (Bladder Tumor Antigen) ELISA Kit; BTA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This kit recognizes natural and recombinant Mouse BTA. No significant cross-reactivity or interference between Mouse BTA and analogues was observed.
Sequence Length	115
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	1.563-100ng/mL
Sensitivity	Min: 0.938ng/mL; Max: 100ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for BTA elisa kit	Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Mouse BTA concentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to BTA. Standards or samples are added to the appropriate micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for BTA and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain BTA, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of BTA. You can calculate the concentration of BTA in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	5929888
Molecular Weight	12,913 Da
NCBI Official Full Name	Bta
UniProt Protein Name	Bta
UniProt Gene Name	bta
UniProt Entry Name	Q9RP93_STREE

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
