

Mouse beta-CTx ELISA Kit | beta-CTx elisa kit

Mouse beta-CTx (Beta Crosslaps) ELISA Kit

CATALOG #
AAA165725

REACTIVITY
Mouse

PRODUCT SYNONYMS

beta-CTx; Mouse beta-CTx (Beta Crosslaps) ELISA Kit; beta-CTx elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of Mouse beta-CTx. No significant cross-reactivity or interference between Mouse beta-CTx and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Mouse beta-CTx and all the analogues, therefore, cross reaction may still exist.
Sequence Length	175
Samples	Serum, Plasma, Biological Fluids
Assay Type	Competitive
Detection Range	78.125-5000pg/mL
Sensitivity	Min: 46.875pg/mL; Max: 5000pg/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for beta-CTx elisa kit	Description: The kit is a competitive enzyme immunoassay for in vitro quantitative measurement of beta-CTx in Mouse serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Competitive-ELISA as the method. The microtiter plate provided in this kit has been pre-coated with Mouse beta-CTx. During the reaction, Mouse beta-CTx in the sample or standard competes with a fixed amount of Mouse beta-CTx on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Mouse beta-CTx. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of Mouse beta-CTx in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	345133085
Molecular Weight	18,387 Da
NCBI Official Full Name	beta lactamase CTX M-15, partial
UniProt Protein Name	Beta-lactamase
UniProt Gene Name	CTX M-15
UniProt Entry Name	G3ESI4_9ENTR

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
