### PRODUCT SYNONYMS

ADAMDEC1; Polyclonal Antibody; ADAMDEC1 Polyclonal Antibody; M12.219; anti-ADAMDEC1 antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                        |
|----------------------------------------------------|------------------------------------------------------------------------|
| Host                                               | Rabbit                                                                 |
| Reactivity                                         | Human                                                                  |
| Clonality                                          | Polyclonal                                                             |
| Isotype                                            | IgG                                                                    |
| Purity/Purification                                | Affinity purification                                                  |
| Form/Format                                        | PBS with 0.05% sodium azide, 50% glycerol, pH7.3                       |
| Sequence Length                                    | 391                                                                    |
| Applicable Applications for anti-ADAMDEC1 antibody | IHC (Immunohistochemistry), ELISA                                      |
| Immunogen                                          | Recombinant protein of human ADAMDEC1                                  |
| Note                                               | Centrifuge before opening to ensure complete recovery of vial contents |
| Preparation and Storage                            | Store at -20°C. Avoid freeze / thaw cycles.                            |

### ADDITIONAL INFORMATION

#### Related Product Information for anti-ADAMDEC1 antibody

This encoded protein is thought to be a secreted protein belonging to the disintegrin metalloproteinase family. Its expression is upregulated during dendritic cells maturation. This protein may play an important role in dendritic cell function and their interactions with germinal center T cells.
