

Epididymal Protein 4 (HE4) ELISA Kit | HE4 elisa kit

Human Epididymal Protein 4 (HE4) ELISA Kit

CATALOG #
AAA16711

PRODUCT SYNONYMS

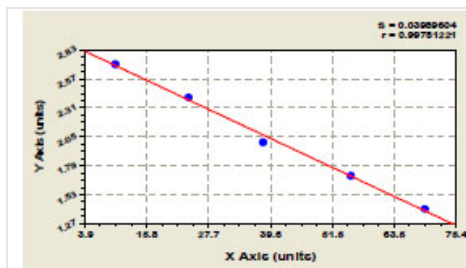

Epididymal Protein 4 (HE4); Human Epididymal Protein 4 (HE4) ELISA Kit; HE4 elisa kit

PRODUCT SPECIFICATIONS

Preparation and Storage

Store all reagents at 2-8 degree C

Intended Uses: This HDV IgG ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of HDV IgG in the sample, this HDV IgG ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a cutoff value. The existence or not of HDV IgG in the samples is then determined by comparing the O.D. of the samples to the CUT OFF.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
