### PRODUCT SYNONYMS

TRIM32; Polyclonal Antibody; TRIM32 Polyclonal Antibody; HT2A; BBS11; TATIP; LGMD2H; anti-TRIM32 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                           |
|--------------------------------------------------|-------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                    |
| Reactivity                                       | Human, Mouse, Rat                                                                         |
| Clonality                                        | Polyclonal                                                                                |
| Isotype                                          | IgG                                                                                       |
| Purity/Purification                              | Antigen affinity purification                                                             |
| Concentration                                    | 1mg/mL (varies by lot)                                                                    |
| Sequence Length                                  | 653                                                                                       |
| Applicable Applications for anti-TRIM32 antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA                                      |
| Immunogen                                        | Recombinant protein of human TRIM32                                                       |
| Buffer                                           | PBS with 0.05% sodium azide, 50% glycerol, pH7.3                                          |
| Preparation and Storage                          | Store at -20 degree C (regular) and -80 degree C (long term). Avoid freeze / thaw cycles. |

Immunohistochemistry of paraffin-embedded Human colon cancer using TRIM32 Polyclonal Antibody at dilution of 1:25

#### IHC (Immunohiostchemistry)

Immunohistochemistry of paraffin-embedded Human cervical cancer using TRIM32 Polyclonal Antibody at dilution of 1:25

#### WB (Western Blot)

Western Blot analysis of Lovo cell using TRIM32 Polyclonal Antibody at dilution of 1:200

### ADDITIONAL INFORMATION

#### Related Product Information for anti-TRIM32 antibody

The protein encoded by this gene is a member of the tripartite motif (TRIM) family. The TRIM motif includes three zinc-binding domains, a RING, a B-box type 1 and a B-box type 2, and a coiled-coil region. The protein localizes to cytoplasmic bodies. The protein has also been localized to the nucleus, where it interacts with the activation domain of the HIV-1 Tat protein. The Tat protein activates transcription of HIV-1 genes.

Product Categories/Family for anti-  
TRIM32 antibody

Cell Biology

## NCBI AND UNIPROT INFORMATION

NCBI GI #

649107085

NCBI Official Full Name

TRIM32, partial

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
