

## Rabbit F2R Polyclonal Antibody | anti-F2R antibody

F2R Polyclonal Antibody

|                               |                       |                                        |                                                    |
|-------------------------------|-----------------------|----------------------------------------|----------------------------------------------------|
| CATALOG #<br><b>AAA168627</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Immunohistochemistry, ELISA</b> |
|-------------------------------|-----------------------|----------------------------------------|----------------------------------------------------|

### PRODUCT SYNONYMS

F2R; Polyclonal Antibody; F2R Polyclonal Antibody; TR; HTR; CF2R; PAR1; PAR-1; anti-F2R antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                                                           |
|-----------------------------------------------|-------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                    |
| Reactivity                                    | Human, Mouse, Rat                                                                         |
| Clonality                                     | Polyclonal                                                                                |
| Isotype                                       | IgG                                                                                       |
| Purity/Purification                           | Antigen affinity purification                                                             |
| Concentration                                 | 1.4mg/mL (varies by lot)                                                                  |
| Sequence Length                               | 1165                                                                                      |
| Applicable Applications for anti-F2R antibody | IHC (Immunohistochemistry), ELISA                                                         |
| Immunogen                                     | Synthetic peptide of human F2R                                                            |
| Buffer                                        | PBS with 0.05% sodium azide, 50% glycerol, pH7.3                                          |
| Preparation and Storage                       | Store at -20 degree C (regular) and -80 degree C (long term). Avoid freeze / thaw cycles. |

### IMAGES

**IHC (Immunohistochemistry)**

Immunohistochemistry of paraffin-embedded Human ovarian cancer tissue using F2R Polyclonal Antibody at dilution 1:40

**IHC (Immunohistochemistry)**

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using F2R Polyclonal Antibody at dilution 1:40

### ADDITIONAL INFORMATION

**Related Product Information for anti-F2R antibody**

Coagulation factor II receptor is a 7-transmembrane receptor involved in the regulation of thrombotic response. Proteolytic cleavage leads to the activation of the receptor. F2R is a G-protein coupled receptor family member.

## NCBI AND UNIPROT INFORMATION

|                         |                             |
|-------------------------|-----------------------------|
| NCBI GI #               | 88769946                    |
| Molecular Weight        | 132,640 Da                  |
| NCBI Official Full Name | F2R                         |
| UniProt Protein Name    | DNA-directed RNA polymerase |
| UniProt Gene Name       | F2R                         |
| UniProt Entry Name      | Q1HTS4_9POXV                |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
