### PRODUCT SYNONYMS

DISC1; Polyclonal Antibody; DISC1 Polyclonal Antibody; SCZD9; C1orf136; anti-DISC1 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                           |
|-------------------------------------------------|-------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                    |
| Reactivity                                      | Human, Mouse, Rat                                                                         |
| Clonality                                       | Polyclonal                                                                                |
| Isotype                                         | IgG                                                                                       |
| Purity/Purification                             | Antigen affinity purification                                                             |
| Concentration                                   | 2mg/mL (varies by lot)                                                                    |
| Sequence Length                                 | 547                                                                                       |
| Applicable Applications for anti-DISC1 antibody | IHC (Immunohistochemistry), ELISA                                                         |
| Immunogen                                       | Synthetic peptide of human DISC1                                                          |
| Buffer                                          | PBS with 0.05% sodium azide, 50% glycerol, pH7.3                                          |
| Preparation and Storage                         | Store at -20 degree C (regular) and -80 degree C (long term). Avoid freeze / thaw cycles. |

| Related Product Information for anti-DISC1 antibody | This gene encodes a protein with multiple coiled coil motifs which is located in the Nucleus, Cytoplasm and mitochondria. The protein is involved in neurite outgrowth and cortical development through its interaction with other proteins. This gene is disrupted in a t(1; 11)(q42. 1; q14. 3) translocation which segregates with schizophrenia and related psychiatric disorders in a large Scottish family. Alternate transcriptional splice variants, encoding different isoforms, have been characterized. |
| Product Categories/Family for anti-DISC1 antibody   | Neuroscience                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
