

Rabbit anti-Human NAIP Polyclonal Antibody | anti-NAIP antibody

NAIP Polyclonal Antibody

CATALOG # AAA169441	HOST Rabbit	REACTIVITY Human	APPLICATIONS Immunohistochemistry, ELISA
-------------------------------	-----------------------	----------------------------	--

PRODUCT SYNONYMS

NAIP; Polyclonal Antibody; NAIP Polyclonal Antibody; BIRC1; NLRB1; psiNAIP; anti-NAIP antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Affinity purification
Form/Format	PBS with 0.05% sodium azide, 50% glycerol, pH7.4
Sequence Length	1232
Applicable Applications for anti-NAIP antibody	IHC (Immunohistochemistry), ELISA
Immunogen	Synthetic peptide of human NAIP
Preparation and Storage	Store at -20°C. Avoid freeze / thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human brain tissue using NAIP Polyclonal Antibody at dilution 1:30

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human thyroid cancer tissue using NAIP Polyclonal Antibody at dilution 1:30

ADDITIONAL INFORMATION

Related Product Information for anti-NAIP antibody	This gene is part of a 500 kb inverted duplication on chromosome 5q13. This duplicated region contains at least four genes and repetitive elements which make it prone to rearrangements and deletions. The repetitiveness and complexity of the sequence have also caused difficulty in determining the organization of this genomic region. This copy of the gene is full length; additional copies with truncations and internal deletions are also present in this region of chromosome 5q13. It is thought that this gene is a modifier of spinal muscular atrophy caused by mutations in a neighboring gene, SMN1.
Product Categories/Family for anti-NAIP antibody	Cancer; Cell biology

NCBI AND UNIPROT INFORMATION

NCBI GI #	2135814
NCBI Official Full Name	neuronal apoptosis inhibitory protein - human

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
