

Human ADCY2 (Adenylate Cyclase 2) CLIA Kit | ADCY2 clia kit

Human ADCY2 (Adenylate Cyclase 2) CLIA Kit

CATALOG #
AAA170902

REACTIVITY
Human

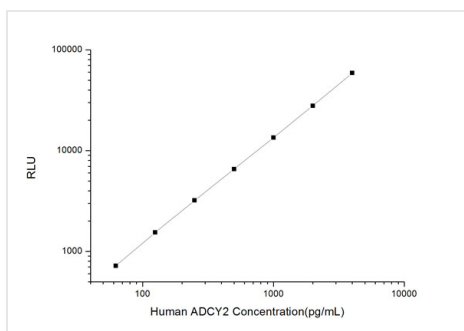

PRODUCT SYNONYMS

ADCY2 (Adenylate Cyclase 2); Human ADCY2 (Adenylate Cyclase 2) CLIA Kit; AC2; HBAC2; ADCY2 clia kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes natural and recombinant ADCY2. No significant cross-reactivity or interference between ADCY2 and analogues was observed.
Sequence Length	179
Assay Type	Sandwich
Detection Range	62.5-4000pg/mL
Sensitivity	Min: 37.5pg/mL; Max: 4000pg/mL

ADDITIONAL INFORMATION

Related Product Information for ADCY2 clia kit

Intended Uses: This CLIA kit applies to the in vitro quantitative determination of ADCY2 concentrations in serum, plasma and other biological fluids.

Principle of the Assay: This kit uses Sandwich-CLIA as the method. The micro CLIA plate provided in this kit has been pre-coated with an antibody specific to ADCY2. Standards or samples are added to the appropriate micro CLIA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for ADCY2 and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain ADCY2, biotinylated detection antibody and Avidin-HRP conjugate will appear fluorescence. The Relative light unit (RLU) value is measured spectrophotometrically by the Chemiluminescence immunoassay analyzer. The RLU value is positively associated with the concentration of ADCY2. You can calculate the concentration of ADCY2 in the samples by comparing the RLU value of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	755463059
NCBI Official Full Name	adenylate cyclase 2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
