

Mouse Phosphorylated tau 181 ELISA Kit | p-Tau181 elisa kit

Mouse Phosphorylated tau 181 ELISA Kit

CATALOG #
AAA17095

REACTIVITY
Mouse

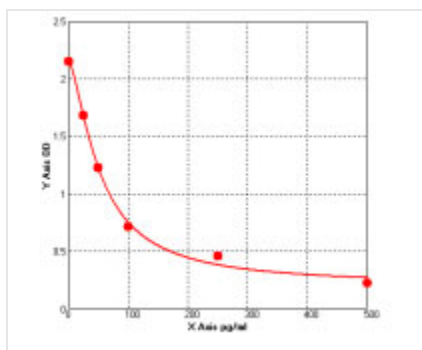

PRODUCT SYNONYMS

Phosphorylated tau 181; Mouse Phosphorylated tau 181 ELISA Kit; p-Tau181 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of PTAU181. No significant cross-reactivity or interference between PTAU181 and analogues was observed. NOTE: Limited by current skills and knowledge, it is impossible for us to complete the cross-reactivity detection between PTAU181 and all the analogues, therefore, cross reaction may still exist in some cases.
Assay Type	Quantitative Competitive
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Sensitivity	1.0 pg/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for p-Tau181 elisa kit	Principle of the Assay: PTAU181 ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-PTAU181 antibody and an PTAU181-HRP conjugate. The assay sample and buffer are incubated together with PTAU181-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the PTAU181 concentration since PTAU181 from samples and PTAU181-HRP conjugate compete for the anti-PTAU181 antibody binding site. Since the number of sites is limited, as more sites are occupied by PTAU181 from the sample, fewer sites are left to bind PTAU181-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The PTAU181 concentration in each sample is interpolated from this standard curve. Intended Uses: This PTAU181 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse PTAU181. This ELISA kit for research use only, not for therapeutic or diagnostic applications!
Product Categories/Family for p-Tau181 elisa kit	Cardiovascular

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
