

# Human C1QTNF1 (C1q and Tumor Necrosis Factor Related Protein 1) CLIA Kit | C1QTNF1 clia kit

Human C1QTNF1 (C1q and Tumor Necrosis Factor Related Protein 1) CLIA Kit

|                               |                            |
|-------------------------------|----------------------------|
| CATALOG #<br><b>AAA171001</b> | REACTIVITY<br><b>Human</b> |
|-------------------------------|----------------------------|

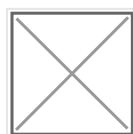

## PRODUCT SYNONYMS

C1QTNF1 (C1q and Tumor Necrosis Factor Related Protein 1); Human C1QTNF1 (C1q and Tumor Necrosis Factor Related Protein 1) CLIA Kit; CTRP1; GIP; ZSIG37; FLJ90694; C1QTNF1 clia kit

## PRODUCT SPECIFICATIONS

|                 |                                                                                                                                                  |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity      | Human                                                                                                                                            |
| Specificity     | This kit recognizes natural and recombinant C1QTNF1. No significant cross-reactivity or interference between C1QTNF1 and analogues was observed. |
| Sequence Length | 281                                                                                                                                              |
| Assay Type      | Sandwich                                                                                                                                         |
| Detection Range | 0.625-40ng/mL                                                                                                                                    |
| Sensitivity     | Min: 0.375ng/mL; Max: 40ng/mL                                                                                                                    |

## ADDITIONAL INFORMATION

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for C1QTNF1 clia kit | <p>Intended Uses: This CLIA kit applies to the in vitro quantitative determination of C1QTNF1 concentrations in serum, plasma and other biological fluids.</p> <p>Principle of the Assay: This kit uses Sandwich-CLIA as the method. The micro CLIA plate provided in this kit has been pre-coated with an antibody specific to C1QTNF1. Standards or samples are added to the appropriate micro CLIA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for C1QTNF1 and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain C1QTNF1, biotinylated detection antibody and Avidin-HRP conjugate will appear fluorescence. The Relative light unit (RLU) value is measured spectrophotometrically by the Chemiluminescence immunoassay analyzer. The RLU value is positively associated with the concentration of C1QTNF1. You can calculate the concentration of C1QTNF1 in the samples by comparing the RLU value of the samples to the standard curve.</p> |
