

Human Retinoid X Receptor Alpha ELISA Kit | RXRa elisa kit

Human RXRa (Retinoid X Receptor Alpha) ELISA Kit

CATALOG #
AAA171457

REACTIVITY
Human

PRODUCT SYNONYMS

Retinoid X Receptor Alpha; Human RXRa (Retinoid X Receptor Alpha) ELISA Kit; RXRa elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes natural and recombinant Human RXRalpha. No significant cross-reactivity or interference between Human RXRalpha and analogues was observed.
Sequence Length	439
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.313-20ng/mL
Sensitivity	Min: 0.188ng/mL; Max: 20ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for RXRa elisa kit	Intended Uses: This ELISA kit applies to the invitro quantitative determination of HumanRXRalphaconcentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to RXRalpha. Standards or samples are added to the appropriate micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for RXRalphaand Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain RXRalpha, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of RXRalpha.You can calculate the concentration of RXRalphain the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	953266466
NCBI GeneID	102567277
NCBI Accession #	NP_001304072.1
NCBI GenBank Nucleotide #	NM_001317143.1
NCBI Official Full Name	retinoid X receptor, alpha
NCBI Official Symbol	RXRA
NCBI Protein Information	retinoid X receptor, alpha

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
