

## Mouse anti-Mouse, Rat beta II tubulin Monoclonal Antibody

beta II tubulin Monoclonal Antibody

|                               |                      |                                 |                                                          |
|-------------------------------|----------------------|---------------------------------|----------------------------------------------------------|
| CATALOG #<br><b>AAA171582</b> | HOST<br><b>Mouse</b> | REACTIVITY<br><b>Mouse, Rat</b> | APPLICATIONS<br><b>Immunoprecipitation, Western Blot</b> |
|-------------------------------|----------------------|---------------------------------|----------------------------------------------------------|

### PRODUCT SYNONYMS

beta II tubulin; Monoclonal Antibody; beta II tubulin Monoclonal Antibody; anti-beta II tubulin antibody

### PRODUCT SPECIFICATIONS

|                                                           |                                                                              |
|-----------------------------------------------------------|------------------------------------------------------------------------------|
| Host                                                      | Mouse                                                                        |
| Reactivity                                                | Mouse, Rat                                                                   |
| Clonality                                                 | Monoclonal                                                                   |
| Isotype                                                   | IgG                                                                          |
| Purity/Purification                                       | Antigen Affinity Purified                                                    |
| Concentration                                             | 1 mg/ml (varies by lot)                                                      |
| Applicable Applications for anti-beta II tubulin antibody | IP (Immunoprecipitation), WB (Western Blot)                                  |
| Immunogen                                                 | Synthetic Peptide                                                            |
| Buffer                                                    | PBS, pH 7.4, containing 0.02% sodium azide as Preservative and 50% Glycerol. |
| Preparation and Storage                                   | Store at -20 degree C. Avoid freeze / thaw cycles.                           |

### IMAGES

**IHC (Immunohistochemistry)**

Immunohistochemistry of paraffin-embedded Human colon tissue using ? II tubulin Monoclonal Antibody at dilution of 1:200.

**WB (Western Blot)**

Western Blot analysis of 1) Mouse brain, 2) Rat brain using ? II tubulin Monoclonal Antibody at dilution of 1:100000.

### ADDITIONAL INFORMATION

|                                                             |                        |
