

## Rabbit ALR Polyclonal Antibody | anti-ALR antibody

ALR Polyclonal Antibody

|                               |                       |                                        |                                            |
|-------------------------------|-----------------------|----------------------------------------|--------------------------------------------|
| CATALOG #<br><b>AAA171655</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|--------------------------------------------|

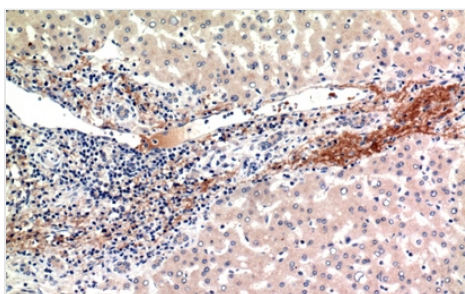

### PRODUCT SYNONYMS

ALR; Polyclonal Antibody; ALR Polyclonal Antibody; GFER; HERV1; HPO; FAD-linked sulfhydryl oxidase ALR; Augmenter of liver regeneration; hERV1; Hepatopoietin; anti-ALR antibody

### PRODUCT SPECIFICATIONS

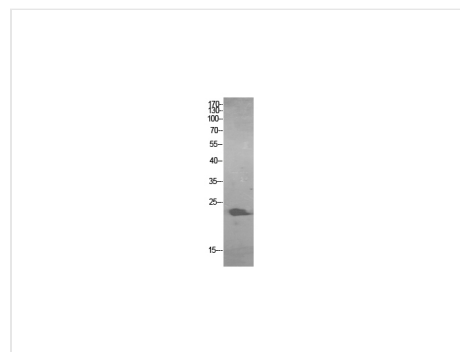

|                                               |                                                                           |
|-----------------------------------------------|---------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                    |
| Reactivity                                    | Human, Mouse, Rat                                                         |
| Clonality                                     | Polyclonal                                                                |
| Isotype                                       | IgG                                                                       |
| Purity/Purification                           | Antigen Affinity Purified                                                 |
| Concentration                                 | 1 mg/ml (varies by lot)                                                   |
| Applicable Applications for anti-ALR antibody | ELISA, WB (Western Blot)                                                  |
| Immunogen                                     | Synthesized peptide derived from the Internal region of human ALR.        |
| Buffer                                        | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.1561% sodium azide. |
| Preparation and Storage                       | Store at -20 degree C. Avoid freeze / thaw cycles.                        |
