

## Rabbit FGF-16 Polyclonal Antibody | anti-FGF-16 antibody

FGF-16 Polyclonal Antibody

|                               |                       |                                        |                                            |
|-------------------------------|-----------------------|----------------------------------------|--------------------------------------------|
| CATALOG #<br><b>AAA171755</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|--------------------------------------------|

### PRODUCT SYNONYMS

FGF-16; Polyclonal Antibody; FGF-16 Polyclonal Antibody; FGF16; Fibroblast growth factor 16; anti-FGF-16 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                           |
|--------------------------------------------------|---------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                    |
| Reactivity                                       | Human, Mouse, Rat                                                         |
| Clonality                                        | Polyclonal                                                                |
| Isotype                                          | IgG                                                                       |
| Purity/Purification                              | Antigen Affinity Purified                                                 |
| Concentration                                    | 1 mg/ml (varies by lot)                                                   |
| Applicable Applications for anti-FGF-16 antibody | ELISA, WB (Western Blot)                                                  |
| Immunogen                                        | Synthesized peptide derived from the Internal region of human FGF-16.     |
| Buffer                                           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.1473% sodium azide. |
| Preparation and Storage                          | Store at -20 degree C. Avoid freeze / thaw cycles.                        |
