

## Rabbit anti-Human MMP-10 Polyclonal Antibody | anti-MMP-10 antibody

Cleaved-MMP-10 (F99) Polyclonal Antibody

|                               |                       |                            |                                            |
|-------------------------------|-----------------------|----------------------------|--------------------------------------------|
| CATALOG #<br><b>AAA171907</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------|--------------------------------------------|

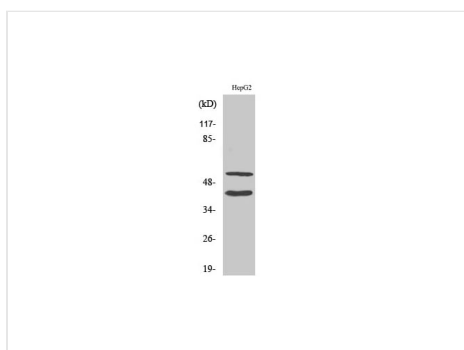

### PRODUCT SYNONYMS

MMP-10; Polyclonal Antibody; Cleaved-MMP-10 (F99) Polyclonal Antibody; MMP10; STMY2; Stromelysin-2; SL-2; Matrix metalloproteinase-10; Transin-2; anti-MMP-10 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                         |
|--------------------------------------------------|-------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                  |
| Reactivity                                       | Human                                                                   |
| Clonality                                        | Polyclonal                                                              |
| Isotype                                          | IgG                                                                     |
| Purity/Purification                              | Antigen Affinity Purified                                               |
| Concentration                                    | 1 mg/ml (varies by lot)                                                 |
| Applicable Applications for anti-MMP-10 antibody | ELISA, WB (Western Blot)                                                |
| Immunogen                                        | Synthesized peptide derived from the Internal region of human MMP-10.   |
| Buffer                                           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| Calculated MW                                    | 54 kDa                                                                  |
| Observed MW                                      | 43 kDa                                                                  |
| Preparation and Storage                          | Store at -20 degree C. Avoid freeze / thaw cycles.                      |

### IMAGES

#### WB (Western Blot)

Western Blot analysis of HepG2 cells using Cleaved-MMP-10 (F99) Polyclonal Antibody at dilution of 1:1000.

ADDITIONAL INFORMATION

|                                                    |                      |
