

## Rabbit anti-Human BST-2 Polyclonal Antibody | anti-BST-2 antibody

BST-2 Polyclonal Antibody

|                               |                       |                            |                                            |
|-------------------------------|-----------------------|----------------------------|--------------------------------------------|
| CATALOG #<br><b>AAA172080</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------|--------------------------------------------|

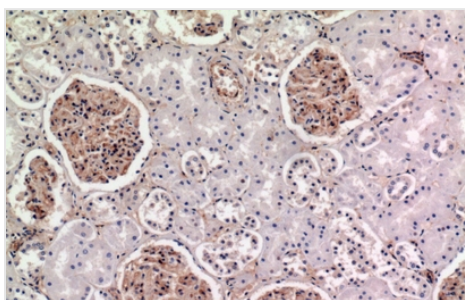

### PRODUCT SYNONYMS

BST-2; Polyclonal Antibody; BST-2 Polyclonal Antibody; BST2; Bone marrow stromal antigen 2; HM1.24 antigen; Tetherin; CD317; anti-BST-2 antibody

### PRODUCT SPECIFICATIONS

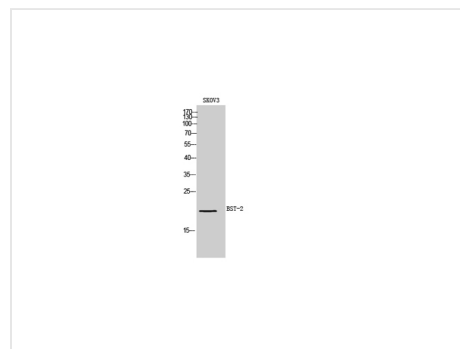

|                                                 |                                                                              |
|-------------------------------------------------|------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                       |
| Reactivity                                      | Human                                                                        |
| Clonality                                       | Polyclonal                                                                   |
| Isotype                                         | IgG                                                                          |
| Purity/Purification                             | Antigen Affinity Purified                                                    |
| Concentration                                   | 1 mg/ml (varies by lot)                                                      |
| Applicable Applications for anti-BST-2 antibody | ELISA, WB (Western Blot)                                                     |
| Immunogen                                       | Synthesized peptide derived from the Internal region of human BST-2.         |
| Buffer                                          | PBS, pH 7.4, containing 0.02% sodium azide as Preservative and 50% Glycerol. |
| Preparation and Storage                         | Store at -20 degree C. Avoid freeze / thaw cycles.                           |
