

## Rabbit anti-Human USP35 Polyclonal Antibody | anti-USP35 antibody

USP35 Polyclonal Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                |
|-----------|--------|------------|-----------------------------|
| AAA175222 | Rabbit | Human      | ELISA, Immunohistochemistry |

### PRODUCT SYNONYMS

USP35; Polyclonal Antibody; USP35 Polyclonal Antibody; Deubiquitinating enzyme 35; Gm1088; Gm493; KIAA1372; Ubiquitin carboxyl terminal hydrolase 35; Ubiquitin carboxyl-terminal hydrolase 35; Ubiquitin specific peptidase 35; Ubiquitin specific processing protease 35; Ubiquitin specific protease 35; Ubiquitin thioesterase 35; Ubiquitin thiolesterase 35; Ubiquitin-specific-processing protease 35; UBP35; USP34; anti-USP35 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                         |
|-------------------------------------------------|---------------------------------------------------------|
| Host                                            | Rabbit                                                  |
| Reactivity                                      | Human                                                   |
| Clonality                                       | Polyclonal                                              |
| Isotype                                         | IgG                                                     |
| Purity/Purification                             | Antigen Affinity Purification                           |
| Form/Format                                     | PBS with 0.05% NaN <sub>3</sub> and 40% Glycerol, pH7.4 |
| Concentration                                   | 0.4mg/mL (varies by lot)                                |
| Sequence Length                                 | 1018                                                    |
| Applicable Applications for anti-USP35 antibody | ELISA, IHC (Immunohistochemistry)                       |
| Immunogen                                       | Fusion protein of human USP35                           |
| Conjugation                                     | Unconjugated                                            |
| Preparation and Storage                         | Store at -20 degree C. Avoid freeze/thaw cycles.        |

ADDITIONAL INFORMATION

|                                                     |                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-USP35 antibody | USP35 (ubiquitin specific peptidase 35) is a 1, 017 amino acid protein that belongs to the peptidase C19 family. Expressed in pancreas, testis and skeletal muscle, USP35 functions to catalyze the conversion of a ubiquitin C-terminal thioester and water to free ubiquitin and a thiol, a reaction that may play a role in signaling events throughout the cell. |
| Product Categories/Family for anti-USP35 antibody   | Cell Biology; Epigenetics and Nuclear Signaling                                                                                                                                                                                                                                                                                                                      |
