ADDITIONAL INFORMATION

Related Product Information for anti-LTBP4 antibody	The protein encoded by this gene binds transforming growth factor beta (TGFB) as it is secreted and targeted to the extracellular matrix. TGFB is biologically latent after secretion and insertion into the extracellular matrix, and sheds TGFB and other proteins upon activation. Defects in this gene may be a cause of cutis laxa and severe pulmonary, gastrointestinal, and urinary abnormalities. Three transcript variants encoding different isoforms have been found for this gene.
Product Categories/Family for anti-LTBP4 antibody	Cancer; Cardiovascular; Signal transduction
