

## Rabbit anti-Human UBD Polyclonal Antibody | anti-UBD antibody

UBD Polyclonal Antibody

|                               |                       |                            |                                                    |
|-------------------------------|-----------------------|----------------------------|----------------------------------------------------|
| CATALOG #<br><b>AAA176515</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human</b> | APPLICATIONS<br><b>ELISA, Immunohistochemistry</b> |
|-------------------------------|-----------------------|----------------------------|----------------------------------------------------|

### PRODUCT SYNONYMS

UBD; Polyclonal Antibody; UBD Polyclonal Antibody; Diubiquitin; FAT10; GABBR1; UBD 3; Ubd; Ubiquitin D; Ubiquitin like protein FAT10; Ubiquitin-like protein FAT10; anti-UBD antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                  |
|-----------------------------------------------|--------------------------------------------------|
| Host                                          | Rabbit                                           |
| Reactivity                                    | Human                                            |
| Clonality                                     | Polyclonal                                       |
| Isotype                                       | IgG                                              |
| Purity/Purification                           | Antigen Affinity Purification                    |
| Form/Format                                   | PBS with 0.05% NaN3 and 40% Glycerol, pH7.4      |
| Concentration                                 | 0.66mg/mL (varies by lot)                        |
| Sequence Length                               | 165                                              |
| Applicable Applications for anti-UBD antibody | ELISA, IHC (Immunohistochemistry)                |
| Immunogen                                     | Fusion protein of human UBD                      |
| Conjugation                                   | Unconjugated                                     |
| Preparation and Storage                       | Store at -20 degree C. Avoid freeze/thaw cycles. |

**IHC (Immunohistochemistry)**

Immunohistochemistry of paraffin-embedded Human esophagus cancer tissue using UBD Polyclonal Antibody at dilution of 1:50(×200)

**IHC (Immunohistochemistry)**

Immunohistochemistry of paraffin-embedded Human tonsil tissue using UBD Polyclonal Antibody at dilution of 1:50(×200)

ADDITIONAL INFORMATION

|                                                   |                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-UBD antibody | UBD (Ubiquitin D) is a Protein Coding gene. Diseases associated with UBD include Hepatocellular Carcinoma. Among its related pathways are TRAF Pathway and fMLP Pathway. GO annotations related to this gene include proteasome binding. An important paralog of this gene is UBB. |
| Product Categories/Family for anti-UBD antibody   | Cancer; Cell Biology; Immunology; Microbiology                                                                                                                                                                                                                                     |
