

FITC Labeling Kit

FITC Labeling Kit

CATALOG #
AAA178172

PRODUCT SYNONYMS

FITC Labeling Kit; FITC Labeling Kit (labeling proteins above 100KD); FITC Labeling Kit labeling kit

PRODUCT SPECIFICATIONS

Preparation and Storage

2~8 degree C, shading light

ADDITIONAL INFORMATION

Related Product Information for FITC Labeling Kit labeling kit

Background: The FITC Labeling Kit provides all the reagents required for labeling, which can label proteins containing primary amino-group ((-NH₂) molecules simply and effectively.

Principle of the Assay: Within a certain pH range, FITC specifically reacts with primary amino groups (N-terminal and lysine residue side chains) to form a stable thiourea bond, so as to realize the coupling of FITC with protein.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
