

Cyanine7 Labeling Kit

Cyanine7 Labeling Kit

CATALOG #
AAA178205

PRODUCT SYNONYMS

Cyanine7 Labeling Kit; Cyanine7 Labeling Kit (labeling proteins above 100KD); Cyanine7 Labeling Kit labeling kit

PRODUCT SPECIFICATIONS

Preparation and Storage

2~8 degree C, shading light

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Cyanine7 Labeling Kit labeling kit

Background: The Cyanine 7 Labeling Kit provides all the reagents required for labeling, which can label proteins containing primary amino-group (-NH₂) molecules simply and effectively.

Principle of the Assay: Within a certain pH range, Cyanine 7 specifically reacts with primary amino groups (N-terminal and lysine residue side chains) to form a stable amide bond, so as to realize the coupling of Cyanine 7 with protein.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
