

Cyanine5 Labeling Kit

Cyanine5 Labeling Kit

CATALOG #
AAA178211

PRODUCT SYNONYMS

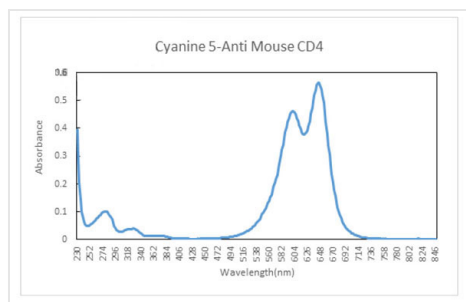

Cyanine5 Labeling Kit; Cyanine5 Labeling Kit (labeling proteins above 100KD); Cyanine5 Labeling Kit labeling kit

PRODUCT SPECIFICATIONS

Preparation and Storage

2~8 degree C, shading light

Standard Curve (Sample)

ADDITIONAL INFORMATION

**Related Product Information for
Cyanine5 Labeling Kit labeling kit**

Background: The Cyanine 5 Labeling Kit provides all the reagents required for labeling, which can label proteins containing primary amino-group (-NH₂) molecules simply and effectively.

Principle of the Assay: Within a certain pH range, Cyanine 5 specifically reacts with primary amino groups (N-terminal and lysine residue side chains) to form a stable amide bond, so as to realize the coupling of Cyanine 5 with protein.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
