

Chromogenic Biotin Labeling Kit

Chromogenic Biotin Labeling Kit

CATALOG #
AAA178217

PRODUCT SYNONYMS

Chromogenic Biotin Labeling Kit; Chromogenic Biotin Labeling Kit (labeling proteins above 100KD); Chromogenic Biotin Labeling Kit labeling kit

PRODUCT SPECIFICATIONS

Preparation and Storage	2~8 degree C, shading light

ADDITIONAL INFORMATION

Related Product Information for Chromogenic Biotin Labeling Kit labeling kit

Background: The Chromogenic Biotin Labeling Kit provides all the reagents required for labeling, which can label proteins containing primary amino-group (-NH₂) molecules simply and effectively.

Principle of the Assay: Within a certain pH range, Chromogenic Biotin specifically reacts with primary amino groups (N-terminal and lysine residue side chains) to form a stable amide bond, so as to realize the coupling of Chromogenic Biotin with protein.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
