

## Long-arm Biotin Labeling Kit

Long-arm Biotin Labeling Kit

CATALOG #  
**AAA178227**

### PRODUCT SYNONYMS

Long-arm Biotin Labeling Kit; Long-arm Biotin Labeling Kit (10KD ~ 30KD protein labeling); Long-arm Biotin Labeling Kit labeling kit

### PRODUCT SPECIFICATIONS

**Preparation and Storage**

2~8 degree C, shading light

### IMAGES

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for Long-arm Biotin Labeling Kit labeling kit

**Background:** The Long-arm Biotin Labeling Kit provides all the reagents required for labeling, which can label proteins containing primary amino-group (-NH<sub>2</sub>) molecules simply and effectively.

**Principle of the Assay:** Within a certain pH range, NHS-LC-LC-Biotin specifically reacts with primary amino groups (N-terminal and lysine residue side chains) to form a stable amide bond, so as to realize the coupling of NHS-LC-LC-Biotin with protein.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
