

Chicken Vitellogenin (VTG) ELISA Kit | VTG elisa kit

Chicken Vitellogenin (VTG) ELISA Kit

CATALOG #
AAA18990

REACTIVITY
Chicken

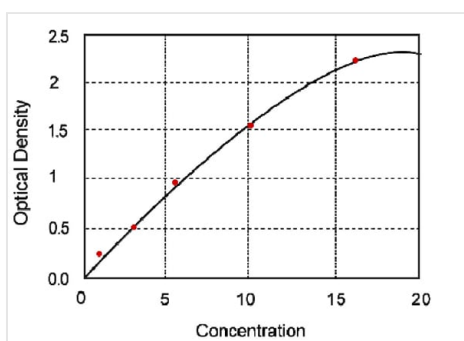

PRODUCT SYNONYMS

Vitellogenin (VTG); Chicken Vitellogenin (VTG) ELISA Kit; VTG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Sequence Length	134
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids
Detection Range	2-600u g/ml
Sensitivity	0.95u g/ml
Intra-assay Precision	Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%
Inter-assay Precision	Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for VTG elisa kit	Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Chicken VTG antibody. VTG present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Chicken VTG Antibody is added and binds to VTG in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated VTG antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Chicken VTG. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm. Intended Uses: This sandwich kit is for the accurate quantitative detection of Chicken Vitellogenin (also known as VTG) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	145336970
Molecular Weight	14,992 Da
NCBI Official Full Name	VTG, partial
UniProt Protein Name	VTG
UniProt Gene Name	vtg2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
