

Bovine Ferritin ELISA Kit | FTMT elisa kit

Bovine Ferritin, mitochondrial ELISA Kit

CATALOG #
AAA192321

REACTIVITY
Bovine

PRODUCT SYNONYMS

Ferritin; Bovine Ferritin; mitochondrial ELISA Kit; mitochondrial; FTMT; 1.16.3.1; FTMT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Bovine
Specificity	This assay recognizes recombinant and natural bovine Ferritin, mitochondrial. No significant cross-reactivity or interference was observed.
Sequence Length	242
Samples	Serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids.
Detection Range	0.78ng/mL -50.0ng/mL.
Preparation and Storage	For long term storage, please store the entire kit at -20 degree C.

ADDITIONAL INFORMATION

Related Product Information for FTMT elisa kit

Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of bovine Ferritin, mitochondrial concentrations in serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids.

Principle of the Assay: The microtiter plate provided in this kit has been pre-coated with an antibody specific to Ferritin, mitochondrial. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated polyclonal antibody preparation specific for Ferritin, mitochondrial and Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then a TMB substrate solution is added to each well. Only those wells that contain Ferritin, mitochondrial, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of Ferritin, mitochondrial in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	115495995
NCBI GeneID	539838
NCBI Accession #	NP_001069658.1
NCBI GenBank Nucleotide #	NM_001076190.1
UniProt Accession #	Q2YDI9
Molecular Weight	27,366 Da
NCBI Official Full Name	ferritin, mitochondrial
NCBI Official Symbol	FTMT
NCBI Protein Information	ferritin, mitochondrial
UniProt Protein Name	Ferritin, mitochondrial
UniProt Gene Name	FTMT
UniProt Entry Name	FTMT_BOVIN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
