

# Human Putative glycosylation-dependent cell adhesion molecule 1 ELISA Kit | GLYCAM1 elisa kit

Human Putative glycosylation-dependent cell adhesion molecule 1 ELISA Kit

|                               |                            |
|-------------------------------|----------------------------|
| CATALOG #<br><b>AAA192976</b> | REACTIVITY<br><b>Human</b> |
|-------------------------------|----------------------------|

## PRODUCT SYNONYMS

Putative glycosylation-dependent cell adhesion molecule 1; Human Putative glycosylation-dependent cell adhesion molecule 1 ELISA Kit; GlyCAM-1; GLYCAM1; GLYCAM1 elisa kit

## PRODUCT SPECIFICATIONS

|                         |                                                                     |
|-------------------------|---------------------------------------------------------------------|
| Reactivity              | Human                                                               |
| Sequence Length         | 47                                                                  |
| Assay Type              | Sandwich                                                            |
| Detection Range         | 78-5000 pg/mL                                                       |
| Sensitivity             | 40.5 pg/mL                                                          |
| Intra-Assay CV          | <=6.4%                                                              |
| Inter-Assay CV          | <=10.0%                                                             |
| Recovery                | 105%                                                                |
| Preparation and Storage | For long term storage, please store the entire kit at -20 degree C. |

## NCBI AND UNIPROT INFORMATION

|                                  |                                                               |
|----------------------------------|---------------------------------------------------------------|
| NCBI GI #                        | <a href="#">74714355</a>                                      |
| NCBI GeneID                      | <a href="#">644076</a>                                        |
| UniProt Accession #              | <a href="#">Q8IVK1</a> ; <a href="#">Q8IUA8</a>               |
| Molecular Weight                 | 3,489 Da                                                      |
| NCBI Official Full Name          | Putative glycosylation-dependent cell adhesion molecule 1     |
| NCBI Official Synonym Full Names | glycosylation dependent cell adhesion molecule 1 (pseudogene) |
| NCBI Official Symbol             | GLYCAM1                                                       |
| UniProt Protein Name             | Putative glycosylation-dependent cell adhesion molecule 1     |
| UniProt Gene Name                | <b>GLYCAM1</b>                                                |

|                            |             |
|----------------------------|-------------|
| UniProt Synonym Gene Names | GlyCAM-1    |
| UniProt Entry Name         | GLCM1_HUMAN |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
